L10	59,049	\$0.25	\$14,762.25
Total		\$5.50/node	\$24,632.00

Non-Working Income: Levels 1–3 require zero direct referrals to withdraw. That's **\$46.50** in potential non-working income just from upline spill (at \$10/ID).

MATRIX RULES

How Forced Matrix Works

Forced 3×3 Spill-Down Logic

Each position in the matrix can hold a maximum of 3 children. When you refer a 4th person, they automatically "spill" down to fill the first available slot — Top to Bottom, Left to Right — within your downline tree. This means even your non-working team members may receive spilled referrals from active upline leaders.

EXAMPLE — SPILLOVER PLACEMENT

If you sponsor 20 direct referrals, 3 will place directly in your Level 1 slots. The remaining 17 will spill over down into your Level 2 and Level 3 slots, supporting your downline team members.

ZenoPool Reserve from Matrix

To accelerate the ZenoPool filling speed and provide multiple streams of passive income, **10% of Matrix Income earned from Levels 3–10** is deducted and credited to your **ZenoPool Re-Entry Reserve Wallet**.

This automatically triggers new reentry positions inside the global pool whenever the reserve reaches \$6.

2 INCOME STREAM

Performance Income

Earn 3.333% daily on your direct business for 10 consecutive days — achieving a full 100% return on your basic ID value.

Trigger Condition: When your total **Direct Business** reaches **3× your Basic ID** ($\$10 \times 3 = \$30$), a Performance cycle activates.

DAILY RATE

3.333%

\$1.00/day on \$30 business (for \$10 ID)

CYCLE DURATION

10 Days $\$1 \times 10 \text{ Days} = \$10$ (100% return)

Scaling with Business

Every additional \$30 of direct business triggers a new cycle. Re-top-ups from your existing directs also trigger fresh cycles, creating a compounding growth engine.

EXAMPLE — PERFORMANCE SCALING

DIRECT BUSINESS (MULTIPLE OF \$30)	DAILY PERFORMANCE INCOME
\$30	\$1 Daily
\$60	\$2 Daily
\$90	\$3 Daily
\$120	\$4 Daily
\$150	\$5 Daily

3 INCOME STREAM

Leadership Income

Earn a percentage of the daily total business generated across each of your direct referral legs.

LEG RANK (BY DAILY BUSINESS)	% OF THAT LEG'S DAILY BUSINESS
1st Leg (Highest Business)	0%
2nd Leg	2%
3rd Leg	4%
4th Leg	8%
5th Leg & All Subsequent	16%

Important: Legs are ranked by daily business volume in **descending order**. The highest-producing leg earns 0% (it's excluded), while all remaining legs earn increasing percentages.

Income Split

90% of Leadership Income goes directly to your Income Wallet. The remaining 10% is distributed as Team Leadership Income to your 10 upline positions (1% per level).

4 INCOME STREAM

Team Leadership Income

10% of every team member's Leadership Income is distributed equally among their 10 matrix upline levels — 1% per level.

How it works: When any member in your downline earns Leadership Income, 10% of that amount is deducted and distributed **1% per level to 10 upline positions** in the Forced Matrix tree.

EXAMPLE — POWER OF TEAM LEADERSHIP (ASSUMING \$100 AVG. LEADERSHIP INCOME PER MEMBER)

LEVEL	TEAM SIZE	× \$1.00 (1%)	YOUR INCOME (\$)
L1	3	× \$1.00	\$3
L2	9	× \$1.00	\$9

∞ Unlimited Automatic Re-Entry (70/30 Split)

INCOME STREAM
